

# HEADSTART® GOLD

## How it Works

### Biostimulants

- Promotes the supply of nutrients
- Ensures efficient use of nutrients
- Prevents deficiency of trace elements

### Enzyme Activity

- Stimulates growth of roots/shoots
- A catalyst for photosynthesis

### Trace Elements

- Copper, Molybdenum, Phosphorous and Sulphur - all essential for rapid rooting and initial seedling growth

### Seaweed Extract with High Cytokinin Content

- Promotes cell division & metabolism
- Leads to faster germination

# HEADSTART® GOLD

## Get your grass off to a flying start

**Faster establishment**

**Stronger seedlings**

**Higher plant numbers**

**HEADSTART® GOLD**

HEADSTART® GOLD is the latest in performance-enhancing seed treatments, developed using the latest scientific research and field experience.

HEADSTART® GOLD uses a combination of enzymes, seaweed extracts and trace

elements to stimulate root formation, development and growth.

A stronger root system during the seedlings critical start-up phase leads to better access to moisture and nutrients; producing stronger, more stress resistant plants.
